Functional ingredients

Cranberries

a source of antioxidants and polyphenols and contain vitamin C. They are associated with supporting urinary tract.

Chondroprotectives (chondroitin sulphate and glucosamine)

support joints and contribute to normal cartilage function. They may help maintain mobility and joint comfort.

Fructo-oligosaccharides and mannan-oligosaccharides

are prebiotics that support gut microflora, contribute to normal digestive function.

Linseed

is a source of fiber, protein, and vitamin B1. It also contains a range of minerals such as calcium, magnesium, iron, manganese, phosphorus, potassium, selenium, and zinc. It naturally contains a high proportion of omega-3 fatty acids.

Salmon oil

a rich source of omega-3 fatty acids (EPA and DHA), which contributing to normal cognitive function, skin, and a shiny coat. Omega-3 fatty acids are also contribute to the body's normal response processes.

Psyllium

provides soluble fiber that contributes to normal bowel function and supports proper digestion.

Milk thistle seeds

contain silymarin, a complex of compounds with antioxidant properties.

Rosehips

a source of vitamins (C, E, A, carotenoids), flavonoids, polyphenols and triterpenoic acids. It has antioxidative effects.

Taurine

a valuable nutrient for cats and an important amino acid for dogs, contributing to normal heart function, vision, and nervous system function. It also contributes to overall vitality.

L-Tryptophan

is a valuable amino acid that plays a role in the production of serotonin and melatonin hormones important for regulating mood, sleep, and appetite.

Lemon balm

an herb with a light lemon scent, known for its calming and relaxing effects. It helps reduce stress and anxiety while supporting restful sleep.

ADULT active + energy

High energy
Chondroprotectives
Gluten free, NO chicken recipe
Rich in fresh meat

BEEF

750 g | 2 kg | 12 kg

Complete food for active adult dogs, formulated to meet increased energy demands during higher physical activity. It supports endurance, performance, and overall physical condition. The beef-based formula helps maintain optimal body condition, promotes muscle development, and supports overall vitality. It is also suitable for pregnant females or for dogs that need to gain weight. Thanks to its balanced composition, it additionally supports healthy digestion, normal immune system function, and proper joint function.

Composition:

dehydrated beef protein (31%), broken rice, fresh beef (14%), beef tallow (10%), brown rice, dried beet pulp, hydrolyzed vegetable protein, yeast (2%), linseed (1.5%), minerals, salmon oil (0.5%), fructo-oligosaccharides (0.2%), mannan-oligosaccharides (0.15%), *Yucca schidigera* (0.15%), chondroitine sulphate (270 mg/kg), glucosamine sulphate (200 mg/kg), *Lactobacillus paracasei* HA-108 inactivated (7.5×10^9 cells/kg).

Analytical constituents:

crude protein 30%, crude fat 20%, crude fibre 2%, crude ash 7%, moisture 8%, calcium 1.4%, phosphorus 0.9%, sodium 0.25%, magnesium 0.09%, omega 6 fatty acids 1.2%, omega 3 fatty acids 0.55%.

Metabolizable energy: 4,115 kcal/kg.

ADULT active + energy

High energy
Chondroprotectives
Gluten free recipe
Rich in fresh meat

CHICKEN

750 g | 2 kg | 12 kg

Complete food for active adult dogs, designed to compensate for increased energy expenditure and to support endurance and stamina in dogs under higher physical load. The chicken-based formula helps maintain optimal condition, muscle mass, and overall vitality. The recipe is also suitable for pregnant females or for dogs that need to gain weight. Thanks to its balanced composition, it also contributes to healthy digestion, normal immune system function, and proper joint function.

Composition:

dehydrated chicken protein (35%), broken rice, fresh chicken (14%), poultry fat (10%), brown rice, dried beet pulp, hydrolyzed chicken protein (3%), yeast (2%), linseed (1.5%), minerals, salmon oil (0.5%), fructo-oligosaccharides (0.2%), mannan-oligosaccharides (0.15%), *Yucca schidigera* (0.15%), chondroitine sulphate (270 mg/kg), glucosamine sulphate (200 mg/kg), *Lactobacillus paracasei* HA-108 inactivated (7.5×10^9 cells/kg).

Analytical constituents:

crude protein 32%, crude fat 20%, crude fibre 2%, crude ash 6.5%, moisture 8%, calcium 1.25%, phosphorus 0.9%, sodium 0.35%, magnesium 0.09%, omega 6 fatty acids 3.85%, omega 3 fatty acids 0.65%.

Metabolizable energy: 4,140 kcal/kg.

ADULT light + sterilised

Lower energy
Chondroprotectives
Gluten free, NO chicken recipe
Rich in fresh meat

BEEF

750 g | 2 kg | 12 kg

Complete food designed for adult dogs with lower energy requirements, especially after neutering or with a tendency to gain weight. Thanks to its balanced protein content and reduced fat level, it helps maintain an optimal body weight while preserving muscle mass. The formula supports healthy digestion and proper intestinal function, while also contributing to joint health and overall mobility. The content of selected nutrients and functional ingredients helps contribute to normal immune system function and overall vitality. The food is designed to provide a long-lasting feeling of satiety while supporting healthy skin and a shiny coat.

Composition:

dehydrated beef protein (26%), broken rice, fresh beef (14%), brown rice, peas (8%), dried beet pulp, lignocellulose, hydrolyzed vegetable protein, beef tallow (2%), linseed (1%), minerals, salmon oil (0.5%), psyllium (0.5%), yeast (0.5%), fructo-oligosaccharides (0.2%), mannan-oligosaccharides (0.15%), *Yucca schidigera* (0.15%), chondroitine sulphate (270 mg/kg), glucosamine sulphate (200 mg/kg), *Lactobacillus paracasei* HA-108 inactivated (7.5×10^9 cells/kg).

Analytical constituents:

crude protein 29%, crude fat 10%, crude fibre 5%, crude ash 6%, moisture 8%, calcium 1.2%, phosphorus 0.8%, sodium 0.25%, magnesium 0.08%, omega 6 fatty acids 0.9%, omega 3 fatty acids 0.4%.

Metabolizable energy: 3,469 kcal/kg.

ADULT light + sterilised

Lower energy
Chondroprotectives
Gluten free recipe
Rich in fresh meat

CHICKEN

750 g | 2 kg | 12 kg

Complete food formulated for adult dogs with lower natural activity levels, those needing to control or reduce their weight, as well as for sterilized and neutered dogs. The specialized chicken-based recipe offers a lower energy value while maintaining a feeding portion sufficient to satisfy the dog, along with an adequate amount of chondroprotectives to support joint health. Thanks to its higher content of high-quality proteins and lower fat content, it helps maintain optimal body weight and muscle condition. It supports healthy digestion, vitality, and the overall condition of the dog.

Composition:

dehydrated chicken protein (27%), broken rice, fresh chicken (14%), brown rice, peas (8%), dried beet pulp, lignocellulose, hydrolyzed chicken protein (3%), poultry fat (2.5%), linseed (1.5%), minerals, salmon oil (0.5%), psyllium (0.5%), yeast (0.5%), fructo-oligosaccharides (0.2%), mannan-oligosaccharides (0.15%), *Yucca schidigera* (0.15%), chondroitine sulphate (270 mg/kg), glucosamine sulphate (200 mg/kg), *Lactobacillus paracasei* HA-108 inactivated (7.5×10^9 cells/kg).

Analytical constituents:

crude protein 28%, crude fat 10%, crude fibre 5%, crude ash 6%, moisture 8%, calcium 1.2%, phosphorus 0.8%, sodium 0.3%, magnesium 0.08%, omega 6 fatty acids 2.1%, omega 3 fatty acids 0.55%.

Metabolizable energy: 3,466 kcal/kg.

ADULT harmony + relax

L-tryptophan
Lemon balm
Gluten free recipe
Rich in fresh meat

TURKEY

750 g | 2 kg | 12 kg

Complete food for adult dogs designed to support overall well-being and emotional balance. Thanks to high-quality protein sources, it helps maintain optimal condition and muscle mass, while a balanced fat content provides energy without unnecessarily burdening the body. The formula is developed to support healthy digestion and intestinal microflora, contributing to improved immunity and vitality. Functional additives help reduce stress and promote calm behavior; the food is ideal for dogs sensitive to changes or demanding situations, making it an excellent choice for everyday care of both physical and mental well-being.

Composition:

dehydrated turkey protein (23%), broken rice, fresh turkey (14%), brown rice, peas (7%), poultry fat (6%), dried beet pulp, dried chicken protein (5%), hydrolyzed chicken protein (3%), yeast (1.5%), linseed (1.5%), minerals, salmon oil (0.5%), fructo-oligosaccharides (0.2%), mannan-oligosaccharides (0.15%), *Yucca schidigera* (0.15%), lemon balm (0.05%), *Lacticaseibacillus paracasei* HA-108 inactivated (7.5×10^9 cells/kg).

Analytical constituents:

crude protein 28%, crude fat 14%, crude fibre 2.5%, crude ash 7%, moisture 8%, calcium 1.6%, phosphorus 1.1%, sodium 0.3%, magnesium 0.1%, omega 6 fatty acids 2.5%, omega 3 fatty acids 0.65%.

Metabolizable energy: 3,791 kcal/kg.

ADULT mobility + joint support

Chondroprotectives
NO chicken protein
Grain free recipe
Rich in fresh meat

DUCK

750 g | 2 kg | 12 kg

Complete food for adult dogs designed to help support healthy mobility and long-term vitality. Thanks to its balanced nutritional profile, it helps maintain optimal condition and strong muscles while supporting joint care and proper function. The recipe is particularly suitable for active dogs or individuals with increased demands on the musculoskeletal system. The food contributes to the dog's overall well-being, helps support healthy digestion, and helps maintain its energy and joy of movement every day.

Composition:

dehydrated duck protein (28%), potato flakes, fresh duck (14%), peas, potato starch, poultry fat (8%), dried beet pulp, hydrolyzed vegetable protein, yeast (2%), minerals, salmon oil (0.5%), fructo-oligosaccharides (0.2%), mannan-oligosaccharides (0.15%), *Yucca schidigera* (0.15%), green mussel extract (0.1%), glucosamine sulphate (900 mg/kg), chondroitine sulphate (650 mg/kg), *Lacticaseibacillus paracasei* HA-108 inactivated (7.5×10^9 cells/kg).

Analytical constituents:

crude protein 28%, crude fat 15%, crude fibre 2.5%, crude ash 6.5%, moisture 8%, calcium 1.2%, phosphorus 0.9%, sodium 0.2%, magnesium 0.08%, omega 6 fatty acids 2.69%, omega 3 fatty acids 0.31%.

Metabolizable energy: 3,855 kcal/kg.

Grain free recipe
Rich in fresh meat

TURKEY

750 g | 2 kg | 12 kg

Complete food for adult dogs with sensitive digestion, providing comprehensive support for the digestive system. Thanks to easily digestible turkey protein and a grain-free formula, it is also suitable for dogs prone to food intolerances.

The recipe contains a balanced combination of functional ingredients that contribute to overall digestive comfort and support a healthy gut microbiota. At the same time, it delivers high-quality nutrition for daily condition, including support for healthy skin and coat. It is therefore an ideal choice for dogs that require a gentle yet nutritionally complete diet for everyday feeding.

Composition:

dehydrated turkey protein (26%), potato flakes, fresh turkey (14%), peas, potato starch, dried beet pulp, poultry fat (5%), hydrolyzed vegetable protein, yeast (2%), linseed (1.5%), psyllium (1%), minerals, fructo-oligosaccharides (0.5%), salmon oil (0.5%), mannan-oligosaccharides (0.3%), *Yucca schidigera* (0.15%), milk thistle seed (0.1%), *Lacticaseibacillus paracasei* HA-108 inactivated (7.5×10^9 cells/kg).

Analytical constituents:

crude protein 24%, crude fat 12%, crude fibre 3%, crude ash 7.5%, moisture 8%, calcium 1.65%, phosphorus 1.1%, sodium 0.25%, magnesium 0.1%, omega 6 fatty acids 2.1%, omega 3 fatty acids 0.55%.

Metabolizable energy: 3,631 kcal/kg.

SMALL ADULT

light + sterilised

Lower energy
Chondroprotectives
Gluten free recipe
Rich in fresh meat

CHICKEN

400 g | 1.5 kg | 6 kg

Complete food for adult dogs of small breeds. The balanced recipe, with a high proportion of high-quality animal proteins, supports the maintenance of optimal muscle mass and overall vitality. An appropriate fat content provides energy and contributes to healthy skin and a shiny coat. The formula is highly digestible and gentle on the digestive system, while also supporting a balanced intestinal microflora and proper gastrointestinal function. The content of minerals helps maintain healthy bones and teeth. Thanks to its carefully balanced composition, the food is suitable for long-term daily feeding and contributes to the dog's overall condition and well-being. The kibble size is adapted for small breeds.

Composition:

dehydrated duck protein (22%), potato flakes, fresh duck (14%), peas, poultry fat (9%), potato starch, dehydrated turkey protein (6%), dried beet pulp, hydrolyzed chicken protein (4%), yeast (2%), linseed (1%), minerals, salmon oil (0.5%), fructo-oligosaccharides (0.2%), *Ascophyllum nodosum* (0.2%), mannan-oligosaccharides (0.15%), *Yucca schidigera* (0.15%), dried rosehip (0.1%), *Lactacaseibacillus paracasei* HA-108 inactivated (7.5×10^9 cells/kg).

Analytical constituents:

crude protein 28%, crude fat 16%, crude fibre 3%, crude ash 6.5%, moisture 8%, calcium 1.26%, phosphorus 0.84%, sodium 0.25%, magnesium 0.08%, omega 6 fatty acids 3%, omega 3 fatty acids 0.64%.

Metabolizable energy: 3,864 kcal/kg.

Complete food specially designed for adult dogs of small breeds, which often have lower energy expenditure and specific nutritional requirements. The chicken-based recipe offers a balanced ratio of nutrients with a reduced energy value, without the need to decrease the feeding portion, so the dog remains well satisfied. Enriched with chondroprotective substances, it contributes to joint care, which may be more sensitive in small breeds. A higher proportion of high-quality proteins combined with a limited amount of fats helps maintain an ideal body weight and good muscle condition. The food also helps support proper digestion, vitality, and the dog's overall well-being. Kibble size adapted for small breeds.

Composition:

dehydrated chicken protein (27%), broken rice, fresh chicken (14%), brown rice, peas (8%), dried beet pulp, lignocellulose, hydrolyzed chicken protein (3%), poultry fat (2.5%), linseed (1.5%), minerals, salmon oil (0.5%), psyllium (0.5%), yeast (0.5%), fructo-oligosaccharides (0.2%), mannan-oligosaccharides (0.15%), *Yucca schidigera* (0.15%), chondroitine sulphate (270 mg/kg), glucosamine sulphate (200 mg/kg), *Lactacaseibacillus paracasei* HA-108 inactivated (7.5×10^9 cells/kg).

Analytical constituents:

crude protein 28%, crude fat 10%, crude fibre 5%, crude ash 6%, moisture 8%, calcium 1.2%, phosphorus 0.8%, sodium 0.3%, magnesium 0.08%, omega 6 fatty acids 2.1%, omega 3 fatty acids 0.55%.

Metabolizable energy: 3,466 kcal/kg.
